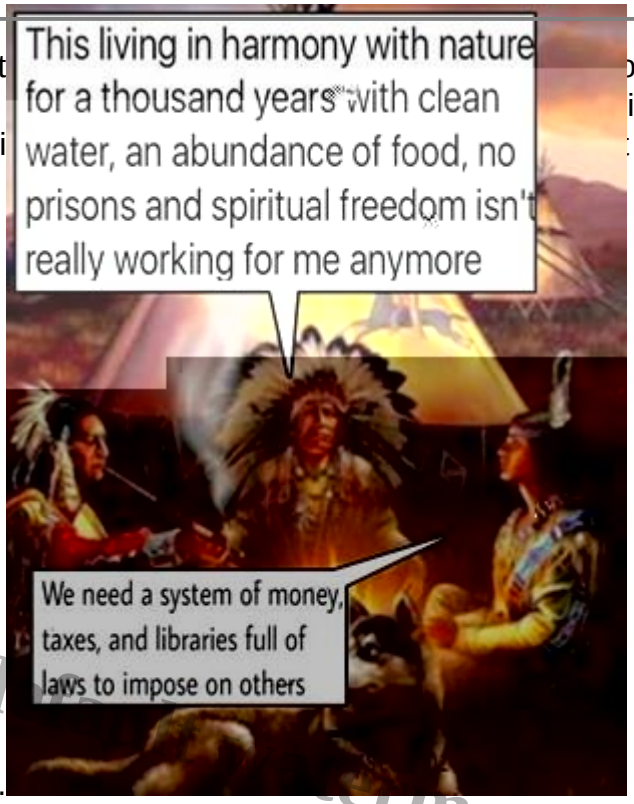
Our birthright is to live our lives naturally by following our instincts. No one can claim what creation provided to each of us. We canâ??t sell her. We are to have free use of creation part of it. She gives us a path, kaiaâ??nereh:kowa, that was passed down to us by our ancestors. Our language reveals the journey to that path into our past, present and future.

Our language is our connect olds the rotikonsatatie, the faces of the unborn who are icrosoft tried to buy our language and store it as thei to modify its meaning to break



our natural guide to survival.

When someone tries to pay us for a land claim, do they doubt that we are of this land? â??owistaâ?? dominated band and tribal council corporations operate by rote programming designed by the matrix. They do not travel in the natural direction in harmony with nature, sa oiera. Tsiniionâ??kwarihoten is to steal away who we are as nature designed us, so that we would become unnatural as well.

When the corporate visitors try to make a claim to our land, they try to convince us we donâ??t know she is our mother. We know we have DNA of this land. They say we have to take a maternity test to prove this. A babyâ??s bonds with their mother cannot ever be taken away.

The corporate matrix makes rules to steal our mind and connection. We donâ??t have amnesia. We know who we are and who our mother is.

The Rolling Stones sing about those who are pulling away from nature and getting so lonely.
