

## THE RISING

### Description

MNN. May 25, 2025. THE RISING

The devastation on turtle island North America began when the invasive species arrived by boats with sails and began poisoning the waters, land and air, spoiling and killing everything they saw..Now these oligarchs are making deals with countries and corporations to be one company under their ownership. Long ago the indigenous people of turtle island united as sovereign, equal and free. A Six Nations leader recently stated that all animals are guided by the stars, that some from the steel bridge over our river system

General View of the Iroquois Indian Village of Caughnawaga, near Montreal.

invaded our shores.

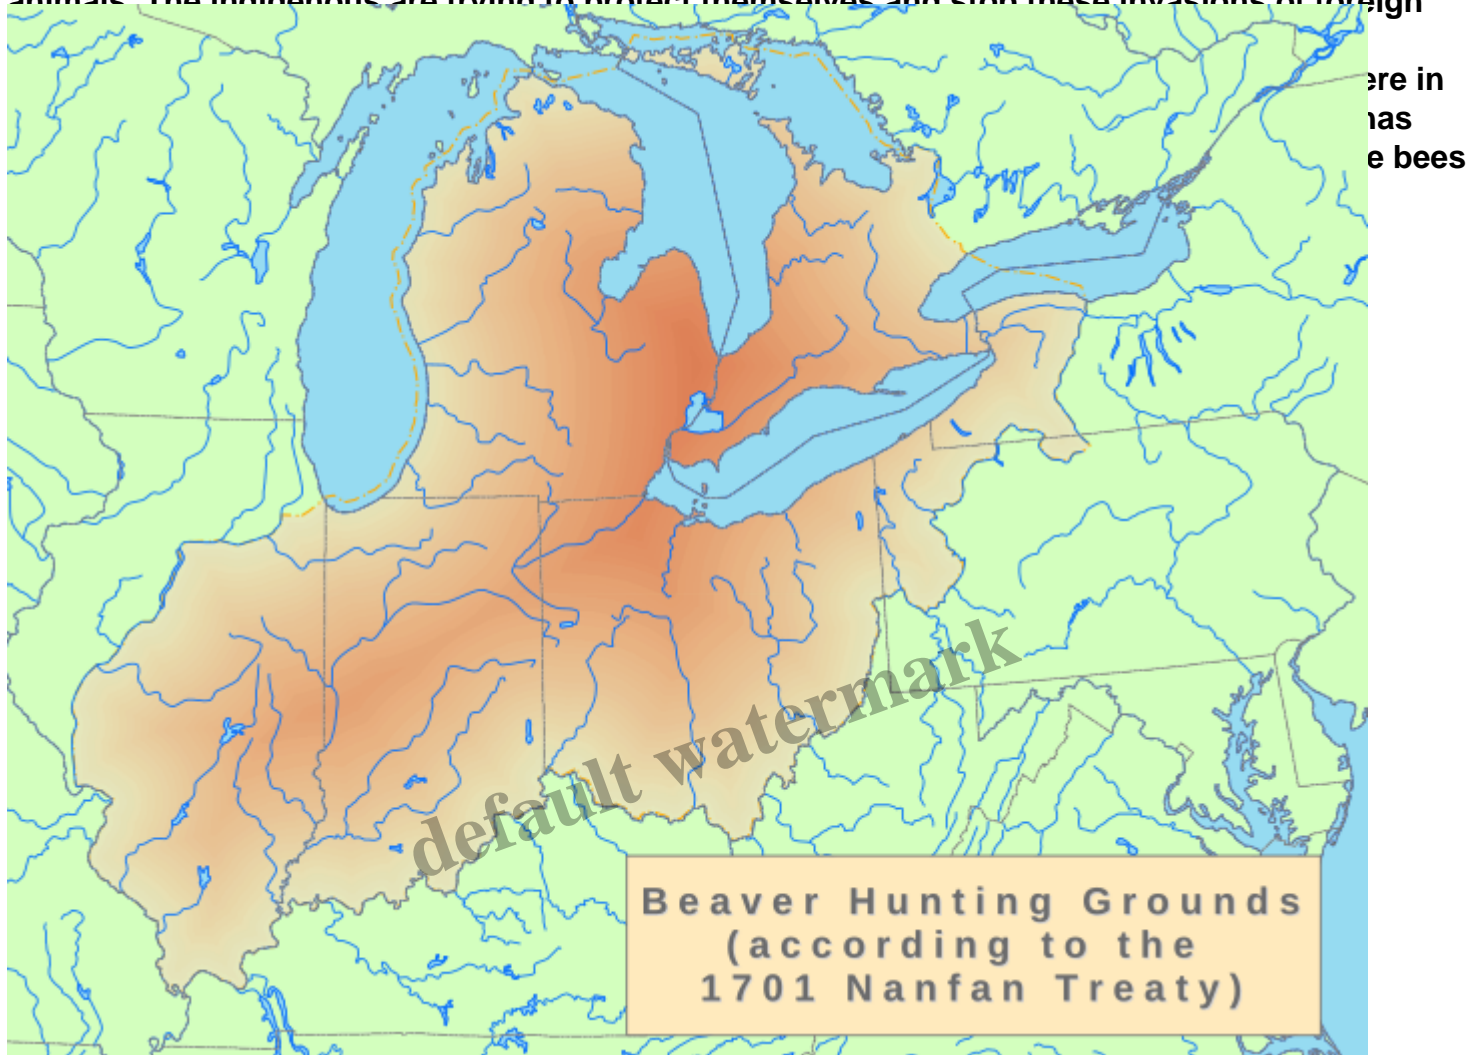

### KAHNAWAKE

The Rotinonshonni Mohawks are the “guardians of the eastern door” of turtle island who were one of the caregivers of the waters and land east of the Mississippi River. All water in eastern turtle island comes from the depths of the Finger Lake area, which is the main center of

Rotinoshonni Iroquois territory. Ironworkers working on top of structures have seen large animals swimming up the rivers and becoming predators of the natural animals of the Rotinoshonni areas. In 1952 the Kanienkehaka Mohawks tried to protect and block the St. Lawrence Seaway from being built by US and Canada through Kahnawake territory near Montreal. We were always aware of the disruption of our waters, land and communities by foreign sea creatures. The European invaders never had permission from the traditional inhabitants of turtle island to change it in any way that would cause foreign species to invade. They realized that the invading ships would bring with them animals, vegetation and people that would destroy turtle island, particularly the Great Lakes. Worse were the foreign species that brought in by ship the waste water which was dumped into the Great Lakes system which multiply by billions into the largest fresh body of water in the world, violating the purpose of its existence. They attack the natural fish and then take over the largest water system in the world. Those beaching themselves have difficulty getting past the bridges which block the rays of the sun causing them to lose their direction and become lost.

Animal warfare on turtle island is happening. These foreign serpents are attacking the natural animals. The indigenous are trying to protect themselves and stop these invasions of foreign

One of the biggest deliberate violations by the invaders was the killing of over 60 million buffalo on the plains to starve the indigenous. The ships also brought in rats with vermin from around the world to infect our natural species and vegetation. The Great Lakes have also been used for human trafficking. It all boils down to money.

We have and will care for our indigenous people, animals and vegetation. The intruders brought refugees from different parts of the world to enslave them. They come from areas of the world where they bring forth deadly foreign sicknesses. Millions were entered into the US carrying foreign diseases not natural to North America. The sudden rise in the number of people getting measles is because they are coming from countries where they are not immunized. Today many birds are extinct because the intruders took their feathers to decorate their hats. In 1942 beavers were purposely taken from Canada to Patagonia in South America to destroy that land. **In the 1940s, North American beavers (*Castor canadensis*) were introduced to Tierra del Fuego, a region in southern Patagonia, to establish a fur trade.** Due to the lack of natural predators in the area, the beavers' population rapidly grew to over 200,000, causing significant ecological damage. Their dams and extensive tree-felling have led to habitat destruction and flooding, impacting native ecosystems and flora. There are no natural predators so they will never leave.

The WARRIOR'S HANDBOOK by the late Karoniaktajeh explains on page 37 'TRIBE OR NATION' outlining how the invaders planned to destroy our natural sovereign system so as to 'disappear' us from our land:

"A tribe is primitive man's attempt at a social order. The nation is the finished product. In ancient times a family and their relatives got together and organized themselves in a band for self-protection. That is the tribe. Later, the tribes or families go together and coalesced into nations.

"One definition of tribe: a derogatory term meaning primitive and low class people. In brief, an insulting expression.

"The Europeans came to North America. They made treaties with the native Americans and, in doing so, recognized the Indians as nations. Only nations can make treaties. International law says that a nation once recognized as a nation remains a nation until it dissolves itself. No nation may dissolve another nation. The U.S. action in 1871 reducing whole Indigenous Nations to mere tribes is illegal according to international law.

"For the white race the nation is a recent concept. When the red and white races met, all the countries in Europe were kingdoms. In a kingdom, only the monarch has sovereignty. Everything and everyone belonged to the king. A true nation is where the authority flows upward from the people to the installed leaders, as in the case of the Six Nations "Iroquois" Confederacy, also known as the Long House, the world's first people's republic. The indigenous were the first to make a national institution, which is a State far ahead of any then known.

**“The Iroquois Confederacy never accepted the reduced tribe status, always stands on its international rights as a union of nations and insists that the U.S. honor the Treaties their ancestors signed with the Six Nations Confederacy”. This is how to reverse the genocide plan.**

Interesting. In Ontario people, indigenous, cougars and eagles are making a comeback. Most of Ontario is Mohawk territory called the “Beaver Hunting Grounds”, also called the Nan Fan Treaty of 1701, which is 800 square miles of hunting grounds. The kanienkehaka Mohawk and indigenous have the responsibility to maintain the balance of the water, lands and air to the whole biosphere. The indigenous and the animals are trying to carry out this duty.

The negligence of the colonists is affecting all of us. We are making a comeback by always remembering our territory which is all of turtle island and our duties as caregivers.

The indigenous and the animals are protecting turtle island from these invaders who are coming from every direction of the world. They are destroying the natural haven of rest for the whole human race, the only safe place in the world to protect the humans from being extinct or enslaved.

BRUCE STINGSTEEN calls everyone to rise up together to help our mother earth.

- Can't see nothin' in front of me  
Can't see nothin' coming up behind  
Make my way through this darkness  
I can't feel nothing but this chain that binds me  
Lost track of how far I've gone  
How far I've gone, how high I've climbed  
On my back's a sixty pound stone  
On my shoulder a half mile of line  
Come on up for the rising  
Come on up, lay your hands in mine  
Come on up for the rising  
Come on up for the rising tonight  
Left the house this morning  
Bells ringing filled the air  
I was wearin' the cross of my calling  
On wheels of fire I come rollin' down here  
Come on up for the rising  
Come on up, lay your hands in mine  
Come on up for the rising  
Come on up for the rising tonight  
Li, li, li, li, li, li, li, li, li, li, li, li, li, li, li  
There's spirits  
above and behind me  
Faces gone black, eyes burnin' bright  
May their precious blood bind me  
Lord, as I stand before your fiery light  
Li, li, li, li, li, li, li, li, li, li, li, li, li, li, li  
I'll see you  
Mary in the garden  
In the garden of a thousand sighs  
There's holy pictures of our children  
Dancin' in a sky filled with light  
May I feel your arms around me  
May I feel your blood mix with mine  
A dream of life comes to me  
Like a catfish dancin' on the end of my line  
Sky of blackness and sorrow (a dream of life)

Sky of love, sky of tears (a dream of life)  
Sky of glory and sadness (a dream of life)  
Sky of mercy, sky of fear (a dream of life)  
Sky of memory and shadow (a dream of life)  
Your burnin' wind fills my arms tonight  
Sky of longing and emptiness (a dream of life)  
Sky of fullness, sky of blessed lifeCome on up for the rising  
Come on up, lay your hands in mine  
Come on up for the rising  
Come on up for the rising tonightLi, li, li, li, li, li, li, li, li, li, li, li, li, li, li
