

SCORCHED EARTH

Description

MNN. SCORCHED EARTH. May 30, 2025.

WARNING TO EVERYBODY!

<https://www.theguardian.com/us-news/2025/may/30/canada-wildfires-air-quality>

Message to Prime Minister of Canada Mark Carney.

Step up to the plate. Enough of curtsying and bestowing gifts to your royal guest. We indigenous need help, choppers, water, supplies, international help, and a million fire fighters.

It's happening because of industrialization. All the oils sucked from the earth, destruction of the forests, poisoning of the rivers, smashing up of all the mountains and rocks, smoke going up in the sky poisoning the air, burning coal to make electricity which is stopping the proper

nourishment of the sun. When the rainmaker wants to clean the ground, the rain gets poisoned from the particulates in the air and poisons the ground further. Mother earth is a living organism which is part of all life here including the rock, the air, the insects, the plants, the four leggeds, the trees and the winged ones. Along with the four winds, and our eldest brother the sun provides the electricity to the earth. And our grandmother the moon which birthed the earth and provides the electro-magnet being is what we are. The toxic smoke created by the forest fires creates hazards throughout turtle island.

Mother earth has her own immune system. She is displaying it now all over the planet with the earthquakes, volcanoes, floods, hurricanes, tsunamis, forest fires, etc.

Mother earth has a super advanced immune system, the forest fires are a glaring example of that. Scientist David Suzuki said that the ocean coral reef is dissolving the protection of the whole world which is needed to replenish what the animals need. Humans are abusing for industrial power. The people of the earth are consumed by greed and cannot replenish the necessary oxygen. The world's forests are being cut down so there is no oxygen for the earth, removing the balance. The environment is being dirtied. The ozone layer is being devoured causing ecological problems for the whole world. Both poles have the same problems. Snow and ice are disappearing. The human race is at risk.

Each person living here on turtle island must learn to get on their knees and give thanks to mother earth and all living things each day. When we fail to do it as a collective it triggers a nerve in mother earth. We will notice more earth quakes, volcanoes, floods, and other natural disasters. That is the price we pay. The world must be protected. Industrial society believes that the indigenous do not count. Send help immediately to northern Alberta, Saskatchewan and Manitoba. In 2024 when Los Angeles was burning, the whole world tried to save the city because it is the belly of the beast where the lie is made to destroy the world.

The greedy are being swallowed up while the indigenous are being ignored in these northern communities.

They do not have power over nature where greed has taken over. Every major city will be surrounded by the flames of destruction. which have been created to satisfy their desires for more things at the expense of those who are warning them from remote indigenous communities which is reaching the minds of the human race. They cannot ignore the plight of the planet. It will devour them. We tell them to stop. We are sounding the alarm. Wake up because your mother is shaking for you to wake up.

The incredible Jimi Hendrix always amazes. “Learn instead of burn”, says he::

default watermark

Hey! Hey! Hey! Hey
Look at the sky turn a hell fire red
Somebody's house is burnin' down down, down down
Down, down, down
Well I asked my friend where is that black smoke comin' from
He just coughed and changed the subject and
said oh wa I think it might snow some
So I left him sippin' his tea an' I jumped in my chariot
And rode off to see just why and who could it be this time
Sisters and brothers daddys mothers standin' 'round cryin'
When I reached the scene the flames were makin' a ghostly whine
So I stood on my horse's back an' I screamed without a crack
I say oh baby why'd you burn your brother's house down
Hey! Hey! Hey! Hey!
Look out the sky turn a hell fire red Lord
Somebody's house is burnin' down down, down down
Look out the sky turn a hell fire red Lord
Somebody's house is burnin' down down, down down down
Well someone stepped from the crowd he was nineteen miles high
He shouts retired and disgusted so we paint red through the sky
I said the truth is straight ahead so don't burn yourself instead
Try to learn instead of burn, hear what I say, yeah, yeah
So I fin'ly rode away but I'll never forget that day
'Cause when I reached the valley I looked way down cross the way
A giant boat from space landed with eerie grace
And came and taken all the dead away
Hey! Hey! Hey! Hey!
What'd I say
Look at the sky turn a hell fire red Lord
Somebody's house is burning down down, down down
Look at the sky turn a hell fire red Lord
Somebody's house is burning down down, down down
Look at the sky, look at the sky
Ooh, ooh, ooh
Ooh, ooh, ooh
Oh baby
