

KANIENTEHAKA MOHAWKS FOREVER!

Description

KANIENTEHAKA MOHAWKS FOREVER. MNN. May 19, 2025. Canadian Prime Minister Carney declared that he will run Canada like a corporation. Nothing new! It has always run like a corporation. It means that Canada is not a sovereign state. [Montevideo Convention 1932]. Canada has no land, no culture, no language. Compared to the Kanientehaka Mohawks, who have land, culture, and languages which makes us a real country. Canada is a corporation, or a dominion or a colony created by a proclamation of the British Crown. Canada has a fiduciary obligation to its shareholders. Otherwise they can be sued in Admiralty Court. When there is a dispute between sovereign nations, there is only one court set up for international resolution in 1903 by Russian Czar Nicholas II in the Hague. All countries signed onto this. The elders of Six Nations told the migrants, 'If you want to become a nation, you have to deal fairly with the people who own the land and learn one of the Indigenous languages'. They were citing international law for all indigenous worldwide. It is a financial relationship between the shareholders and the people who run the company. Whereas when it is between sovereign nations, then international law applies to enforce legal obligations between nations. We indigenous are nations as we have our own land base, language and culture and have been recognized internationally as nation states. In fact Canada calls the natives the 'first nations'.

TRUMP & CARN:

“TURTLE ISLAND HOMELESS STILL EXIST!”

Why are Carney and Trump concerned about the Kanienkehaka Mohawks? Because Dekanawida was the prophet and Ayonwatha was the speaker for the nations of the Rotinoshonni Confederacy which is based on wampum agreements between indigenous nations according to the international great law of peace. Carney and Trump’s plan is to take away our sovereignty without the agreement of each one of us and make us go into civil courts to enforce our rights where it never gets enforced. For over 100 years the Six Nations Rotinoshonni Confederacy and other nations have gone to the Hague in Holland and were recognized as nation states. The English “White Dogs” are now the “Little Mexican Chiuaua” with a broken leg licking its wounds. They’re finding the ride down is not fun. The clan based Matriarchy is coming back.

Canada is now calling itself a corporation. The elite in Canada are the shareholders. This is a contractual obligation between the colonists and the corporations that own Canada and the private Canadian banks that own all the municipalities. People have to go to civil courts to enforce their rights in Canada. The Dominion of Canada has never been a sovereign nation. They are run by the corporate agreements already in place to squat on our land and steal our natural resources and scar our mother earth. We are the oldest democracy on earth. As long the women retain our knowledge of who we are, we shall continue forever and never become extinct.

Trump and Carney fantasize themselves as the “dynamic duo” that will save “Trump World”. International agreements are irrelevant to Trump who makes international agreements with sovereign nations and does not abide by them. Sovereign nations will soon no longer exist. Just corporations, bound by contractual corporate relationships. When there is a breach they must go to the Admiralty Court for resolution.

There appears to be a project to get rid of the Kanienkehaka Mohawk and other indigenous people to illegally occupy indigenous lands in all four directions. We helped initiate the binding agreements between our nations across turtle island. We established the first international treaty on turtle island with the French and English in the summer 1701 called the Great Peace of

Montreal. Kaianerekowa great peace was affirmed by the French and English as the law of this land. Teiohate, two row, was the mechanism whereby the newcomers and the original peoples would follow the original relationship to survive and co-exist in perpetual peace.

The Iroquois Confederacy and hundreds of indigenous peoples on turtle island never gave up our sovereignty and are bound together and protected through teiohateh and kaianerekowa wampums, enforceable between those who made them. Canada cannot go to our courts as they refused to decolonize. Our rights as sovereign nations have always been recognized. When war was declared on Germany the US could not conscript the Iroquois men. We said, "We are a

sovereign nation and will declare war on Germany ourselves". This was legal. When the truce was made after World War II by the Allies, the Iroquois Confederacy was not invited to be part of the truce to end the war. That war has to be ended by a treaty between the Iroquois Confederacy and the Germans. Otherwise it is a continuing war.

We can only deal with nations that have regard for each other's sovereignty. Not with those who purport that Canada and the US are one giant corporation, owned by the same Crown or what Mr. Trump calls the "deep state". As an internationalist, Carney is loyal to the City of London. Only the indigenous peoples have actual territorial claims since time immemorial, which can never change. This is affirmed in sections 35 and 52 of the 1982 Constitution Act of Canada. The corporate Band Councils are military occupations of Indian lands. Canada and the US enforce their will through military force.

Mohawks have always been the proponents of maintaining our sovereignty and independence from Canada and the US governments. The king of England carries out the Crown's obligations to the onkwehonwe nations. We were at Albany and at London where we met the monarch in 1710 to spread the great peace to Europe. We met Peter the Great of Russia and gifted him with 5 of our wampum. These were international agreements between sovereign nations. The king of England may now be reneging on these treaty obligations of the Crown to indigenous sovereign people throughout the world. They want to remove our "Indian interest". The City of London financial institutions are running the world. We are now watching the house of cards fall. The Canadian government refer to their corporate band councils as "nations" in their law which are in fact their puppet governments.

Throughout the world we indigenous are related. When these corporations deal with one, they are dealing with all of us. Every indigenous nation on turtle island is part of the Confederacy. We are all legal owners and caretakers of our mother earth.

In 1932 Canada was suppose to decolonize according to the Montevideo Convention which still has not happened. The banking families hold Canada and no share certificates of the loot stolen from the indigenous people has ever been given to anybody. How much do they owe Indigenous? Everything they took they were suppose to split with the indigenous. When they s 100%.

The corporations of Canada and US want to get rid of the

indigenous sovereigns, take our land and absolutely resolve the Indian problem once and for all. Only international entities can make international agreements. Thus the Kanienkehaka Mohawks being sovereign, can enter treaties with all of the other indigenous entities on turtle island with wampum relations with each other. We will always be the true owners/caregivers of turtle island as creation intended. It is not a covenant when one side reneges which makes the agreement null and void. Everything returns to us. It can be taken before the international

courts in the Hague which deals with breaches of international law. The settler colonists came to turtle island with nothing. In 2023 the GNP Gross National Product, which is the value of Canada, was 2.438 Trillion PPP dollars. There is a lot more owed to us. We own them! Canada, US and Mexico cannot make treaties or agreements with any other country in the world as they are not legal nations.

Here are some evidences of Kanienkehaka sovereignty. There was a fight over the breach of international law between the Mohawks and the International Saint Lawrence Seaway Authority of Canada and United States, which was illegally built through Kanawake in 1952. Matty Lazare and Omar Ghobashy, an international lawyer, claimed that international law was breached, that Kahnawake is part of an independent sovereign nation. Our grandfathers Ronakarakete Peter Horn and Louis Diabo, with Matty Lazare, Louis Diabo's brother, Angus Diabo, who was the confederacy war chief, and Assenaienton Joe Horn were condoled chiefs headed up a national effort to stop this. It was a fight between the kaniekehaka Mohawk nation and the US and Canada. This has never been settled.

In 1996 there was a big fight over control of the Iroquois Confederacy. When Atotarho Leon Shenandoah of Onondaga, was on his death bed in Syracuse, where the great tree of peace once stood, everybody wanted his position. He asked for the Horn and Diabo families to visit him. They were the only ones he allowed to see him in the hospital room. The powerful heads of the NYC banks sent Oren Lyons to the hospital to take over the Rotinoshonni Iroquois Confederacy by taking the belt from the hands of the Atotarho. Leon wanted to stop the NYC bankers from taking over the Iroquois Confederacy. Lyons was shut out of the meeting because Leon did not trust him as he was in cahoots with the NYC bankers.

Our grandfathers tried to stop the Seaway. The Seaway killed Diabi's animals, horses [Dolly and Billy], knocked down his barns and blew up his home. Two small green sheds with flat roofs on his property, which is where our family was raised were used by the Canadian army soldiers to protect towers on Diabo's property that supplied power to the island of Montreal. Canada feared the Germans were going to destroy the towers. Those sheds were moved to two residences in the village of Kahnawake. Machine guns were found in the sheds. Other houses where the Seaway was being built were dynamited when the families were forced to move from their homes. Many family members watched as the houses were burned and the Seaway bulldozers plowed them into the ground.

The White Roots of Peace sent a delegation throughout turtle island to meet with indigenous peoples to discuss and cooperate on common concerns on how we could withstand this attempted takeover of turtle island by oligarchs and conglomerates from around the world. Many indigenous came from North-East-South-West to where the tree of the great peace white pine stood before it was destroyed by the intruder Americans.

Here's Kenny Rogers singing about gamblin' as the house of cards is coming down:
