QUEBEC SUPERIOR COURT DECISION – JUDGE GREGORY MOORE. OCT. 27, 2022. THE ORDER :

MNN. Oct. 28, 2022. We are happy to announce yesterday's successful court decision for the Mohawk Mothers in #500-17-120-468-221 kahentinetha et al v. Societe quebecois des infrastructure et al. This landmark decision halts all excavation work at the Royal Victoria Hospital site. This is the first injunction granted to self-represented indigenous people based on our way of representing ourselves, using our great peace to achieve consensus. The judge decided that the two parties shall spend 4 months together to do this but will convene out of court to determine together the best archeological practices to respect the land and remains.

Judge Moore decided that both parties will use good relations and dialogue to achieve consensus the way kanienkehaka achieve it in the longhouse.

Mohawk Mothers will continue to represent ourselves.

Kimberly Murray, the newly appointed Interlocutor on Unmarked Graves in the case is forming a new legal framework for dealing with unmarked graves and the genocide of our children.

We have demonstrated a strong possibility that our children and others were experimented on and murdered at Royal Victoria Hospital. This ruling is a start in the right direction towards a new legal framework consistent with the two row wampum and kaianerekowa.

This is a turning point on Canadian legislation so indigenous people and the legal system can foster a new relation based on respect and dignity. Once McGill is transformed by this new relationship with onkwehonwe, other institutions will take inspiration and also be transformed.

The court decision will be posted on Mohawk Nation News as soon as it is available. If they understand our process, we will come to one mind. The judge saw that it is time to find another

way to deal with what happened to our children by using this ancient process of the longhouse.

Shorty Long “Here Comes the Judge”Niawen to everyone who helped us accomplish our duties and responsibilities as kahnistensera.
